

MOBILE FUEL STORAGE

Fuel storage

16 m³

Double-walled tank, 16,000-litre capacity

MAIN FEATURES

- Leak detection system
- Fuel level measurement
- 2 × 10 m flexible hose with quick couplings
- Fire extinguisher

PARAMETERS

Tank capacity [l]	16 000
-------------------	---------------

CONNECTIONS

Filling nozzle	3"
Supply from oil tank	1" quick coupling
Return to oil tank	1" quick coupling

TECHNICAL PARAMETERS

Transport dimensions (L × W × H) [mm]	6058 × 2438 × 2950
---------------------------------------	---------------------------

Transport weight [kg]	6500
-----------------------	-------------

Operating weight [kg]	21 000
-----------------------	---------------

FUEL

Light heating oil

Diesel
